PROJECTS

India Socio-Demographic Analysis | *Python, Pandas, NumPy, Matplotlib, Data Visualization* **Nov 2025 - Dec 2025**

- Conducted in-depth analysis on India's socio-demographic data to study population, literacy, and economic trends across regions, deriving meaningful insights.
- Performed data cleaning, preprocessing, and transformation using Pandas and NumPy, ensuring data consistency and reliability for analysis.
- Created detailed visualizations using Matplotlib to highlight regional disparities and support data-driven interpretations.
- Repository Link: **https://github.com/Gaurikabhatt27/india-socio-demographic-insights.git**

Heart Disease Prediction System | *Python, Scikit-learn, Pandas, NumPy, Machine Learning* **Jul 2025 - Aug 2025**

- Built a machine learning model to predict heart disease risk using patient data, supporting early detection and healthcare insights.
- Pre-processed data by handling missing values, performing feature selection, and preparing datasets for accurate model training.
- Trained and evaluated classification models using Scikit-learn, improving performance through optimization and evaluation metrics.
- Repository Link: **https://github.com/Gaurikabhatt27/Heart_Disease_Prediction.git**

Shark Attack Data Analysis | *Python, Pandas, NumPy, Matplotlib, Exploratory Data Analysis (EDA)* **Oct 2024 - Nov 2024**

- Performed exploratory data analysis on global shark attack data to identify patterns based on location, activity, gender, and time.
- Cleaned and transformed datasets by handling missing values and inconsistencies to enhance data quality and usability.
- Visualized trends using Matplotlib and Seaborn to highlight high-risk factors and generate actionable insights.
- Repository Link: **https://github.com/Gaurikabhatt27/Shark-Attack-Data-Analysis-Python-EDA-Project.git**

TRAINING

Advanced Python for ML & AI | *Python, Pandas, NumPy, Scikit-learn | Certificate Link* **Jun 2025 - Jul 2025**

CSE Pathshala

- Completed Advanced Python for ML/AI training, working with Pandas, NumPy, and Scikit-learn for data analysis and machine learning tasks.
- Gained hands-on experience in implementing machine learning models and interpreting results using real-world datasets.
- Developed and executed a Python-based ML project end-to-end in Jupyter Notebook and VS Code, following a complete analytical workflow.

CERTIFICATIONS

Claude 101 **Mar 2026**
Anthropic Academy — *Certificate Link*

Fundamentals of Machine Learning and Artificial Intelligence **Nov 2025**
AWS Training & Certification — *Certificate Link*

Advanced Python for ML & AI **Aug 2025**
CSE Pathshala — *Certificate Link*

Data Science **Feb 2024**
Board Infinity — *Certificate Link*

SKILLS

Programming & Libraries: Python, Pandas, NumPy, Scikit-learn
Data Analysis & Visualization: Matplotlib, Seaborn, Exploratory Data Analysis (EDA)
Machine Learning: Supervised Learning, Classification, Regression, Model Evaluation
Databases & Tools: MySQL, Jupyter Notebook, VS Code
Business Intelligence & Tools: Power BI, Microsoft Excel

EDUCATION

Lovely Professional University *Punjab, India*
Bachelor of Technology - Computer Science and Engineering — CGPA: 8.74 **2023 - Present**

Greenfields Public School *Delhi, India*
Intermediate (12th) — Percentage: 73 **2022 - 2023**

Greenfields Public School *Delhi, India*
Matriculation (10th) — Percentage: 92 **2020 – 2021**
