Projects

India Socio-Demographic Analysis | Python, Pandas, NumPy, Matplotlib, Data Visualization **Nov 2025 - Dec 2025**

- Conducted analysis on India's socio-demographic data to study population, literacy, and economic trends.
- Performed data cleaning, preprocessing, and transformation using Pandas and NumPy.
- Created visualizations using Matplotlib to highlight regional disparities and growth patterns.
- Derived meaningful insights to understand demographic distribution and socio-economic conditions.
- Repository Link: https://github.com/Gaurikabhatt27/india-socio-demographic-insights.git

Heart Disease Prediction System | Python, Scikit-learn, Pandas, NumPy, Machine Learning **Jul 2025 - Aug 2025**

- Built a machine learning model to predict the likelihood of heart disease using patient health data.
- Preprocessed dataset by handling missing values and performing feature selection.
- Trained and evaluated classification models using Scikit-learn.
- Improved model accuracy using evaluation metrics and optimization techniques.
- Repository Link: https://github.com/Gaurikabhatt27/Heart_Disease_Prediction.git

Shark Tank Data Analysis | Python, Pandas, NumPy, Matplotlib, Exploratory Data Analysis (EDA) **Oct 2024 - Nov 2024**

- Analyzed Shark Tank dataset to identify investment patterns, deal success rates, and funding trends.
- Performed exploratory data analysis (EDA) to study investor behavior and startup performance.
- Visualized insights such as top investors, industries, and deal distributions using Matplotlib.
- Identified key factors influencing successful funding decisions.
- Repository Link: https://github.com/Gaurikabhatt27/Shark-Attack-Data-Analysis-Python-EDA-Project.git

Training

Advance Python for ML & AI | Certificate **June 2025 – July 2025**

CSE Pathshala

- Completed **Advanced Python for ML/AI training**, working with **Pandas, NumPy, and Scikit-learn** for data analysis and machine learning tasks.
- Gained hands-on experience in implementing **machine learning models** and interpreting results using real-world datasets.
- Developed and executed a **Python-based ML project** in **Jupyter Notebook and VS Code**, following an end-to-end analytical workflow.

Certificates

Fundamentals of Machine Learning and Artificial Intelligence **Nov 2025**

AWS Training & Certification - Certificate

Advance Python for ML & AI **Aug 2025**

CSE Pathshala - Certificate

Data Science **Feb 2024**

Board Infinity - Certificate

Technical Skills

Programming & Libraries: Python, Pandas, NumPy, Scikit-learn
Data Analysis & Visualization: Matplotlib, Seaborn, Exploratory Data Analysis (EDA)
Machine Learning: Supervised Learning, Classification, Regression, Model Evaluation
Databases & Tools: MySQL, Jupyter Notebook, VS Code
Business Intelligence & Tools: Power BI, Microsoft Excel

Education

Lovely Professional University *Punjab, India*
Bachelor of Technology - Computer Science and Engineering — CGPA: 8.74 **Since August 2023**
Greenfields Public School *Delhi, India*
Intermediate (12th) — Percentage: 73% **April 2022 – March 2023**
Greenfields Public School *Delhi, India*
Matriculation (10th) — Percentage: 92% **April 2020- March 2021**
